

A jack that does the job where others fail. Its low height makes the jack especially effective in confined areas, for example, the positioning of machines, mounting of tools, and load tests.

- Load return.
- Mounting bolt holes for easy fixing.  
Hard chrome-plated plunger with specially treated supporting area.
- Standard or telescopic

Kapacitet* ton (kN)	Lifting height /Teleskop mm	Model SIMSON	Article no	Length mm	Working depth mm	Height, min mm	Width mm	Weight kg
